

THE NATIONAL

JUDICIAL COLLEGE

Custom Courses

**The National Judicial College can
create a custom-designed course
to suit your organization's needs**

This following represents a sampling of the courses available from The National Judicial College (NJC). If you have a topic that is not represented on the list, the NJC can create a custom-designed course to suit your needs. The NJC can create a course of any length from one hour to four or more days. Please contact William Brunson at Brunson@judges.org or at (775) 327-8211. The NJC can present the courses face-to-face in your jurisdiction or in any location you wish. Alternatively, the NJC can present courses via webcast.

- Using Literature as a Teaching Tool: A Faculty Development Workshop

Our expert faculty is at the core of the creating ***The NJC Experience***. To ensure that the NJC's participants receive a world-class education, the College educates faculty members about adult education principles and practices. After participating in our faculty development workshops, the NJC's faculty is then able to create interactive courses that often feature a "learn by doing" model.

The outstanding judges and professionals who share their passions and ideas with participants are also experts in building safe learning communities. Faculty members often say that teaching at the College is one of the most enriching experiences they have in their careers as they gain new friends and learn just as much from teaching as they learned when they were students at the NJC.
